1 General information

This document lists the unit and subject award entry codes for the academic year 2023/24. Further information about making entries is available from the Exams administration | Entries page of our website aqa.org.uk

Series

All entries for our examinations are collected by series, irrespective of the method of entry you use to submit them. The closing date for the receipt of entries and the date of publication of results for particular examinations determine each series.

A copy of the *Exam series guide 2023/24* is available from the Exams administration | Entries page of our website aqa.org.uk

Entry codes

Section 5 contains all the entry codes for all the exams (subject awards, options, units and components) that are available in any given series. You must use the appropriate entry code irrespective of your method of entry.

Basedata (containing information on the specifications, units, options and components) will also be provided for each series for centres wishing to submit entries by EDI.

A separate entry, using the appropriate entry code, is required for every assessment (subject award, unit or option) for which a result is to be reported.

Before making an entry for a particular subject, you should refer to:

- the specification for the subject
- any changes to examination provision detailed in the appropriate specification
- any restrictions on entry detailed in Section 2 of this document.

Please see the Exams administration | Entries | Entries for exams officers page of our website aqa.org.uk for full details on basedata and submitting entries.

2 Restrictions on entry in 2023/24

Unique Learner Numbers (ULNs)

From January 2014, all students entered for an exam at a state funded school/college in England need a ULN. The ULN is a 10-digit number used to access the Personal Learning Record (PLR) of anyone over the age of 14 involved in education or training. The PLR is an online, lifelong record of individuals' achievements which they can share with other parties (for example employers, colleges, universities).

Before entering students, you need to get valid ULNs for them that match the details held in the Learning Records Service (LRS). We can't access LRS to amend errors so if there are mismatches, we will return the invalid data to you, via Centre Services, for you to resolve with LRS.

Where the ULN is mandatory we will not process entries if the ULN is not present. However, if the supplied ULN returns as a mismatch from LRS we will report this. We will still issue student results as normal but will be unable to upload these to the PLR.

ULNs will not replace UCI numbers (Unique Candidate Identifier) so please ensure you include them in your entries submissions.

Discount (classification) codes

Discounting guidance can be found on the Department for Education (DfE) websites

- [Discounting guidance page](#) of the GOV.UK website
- QAN website <https://collectdata.education.gov.uk/qwsweb>

The Department for Education (DfE) assign each specification a national discount code (sometimes referred to as a classification code) on the basis of the subject area it covers - these codes are used in the calculation of school/college performance tables.

Some awards (for example GCE Advanced Subsidiary (AS) awards) have two discount codes, as they are grouped differently for key stage 4 (pre-16) and key stage 5 (post-16) discounting purposes¹.

An early entry rule for key stage 4 (KS4) qualifications was introduced following the Secretary of State announcement that, from 29 September 2013, only a pupil's first entry to a KS4 qualification counts towards their school's performance measures. The early entry rule applies even where qualifications are taken with one exam board and then re-taken with another. Although the new rule does not prevent schools from entering pupils for examinations before the end of key stage 4, it aims to focus attention on whether pupils have been sufficiently prepared to achieve the very best possible outcome in that subject. Pupils can sit an examination more than once but it will be their first certificated grade in that subject that will be used for performance measures.

You may wish to advise your candidates that, if they take two specifications with the same discount code, schools, colleges, universities and employers are very likely to take the view that they have achieved only one of the two specifications. The same view may be taken if candidates take two specifications that have different discount codes but have significant overlap of contents. Candidates who have any doubts about their subject combinations should check with the institution to which they wish to progress or company they wish to join, before embarking on their programmes.

Discount codes are shown in the tables in Section 5.

¹ The JCQ basedata formats only allows for one discount code in basedata. From 2017/18 onwards our basedata includes:

- Key Stage 4 codes for all Level 1, 2 and 1/2 awards (eg GCSEs), where the DfE have published a KS4 code
- Key Stage 5 (post-16) codes for all Level 3 awards (eg AS and A-level), and for any other award that hasn't been assigned a Key Stage 4 code.

Prohibited combinations

Before making an entry for a particular subject, you should refer to any statement in the specification that deals with prohibited combinations of units and specifications, in addition to any restrictions of specifications within the same discount code.

Candidates entered for prohibited combinations of subjects will be reported on the *Centre Entry Query Report*. You will be required to cancel or amend the entry. You must inform us of these decisions by EDI or on Centre Services.

Private candidates

A private candidate is someone who enters for exams through an AQA-approved school or college but is not enrolled as a candidate there. Private candidates may be self-taught, home-schooled or have private tuition with a tutor or through a distance learning organisation.

Candidates can only become a private candidate in the UK. Exams are not available for private candidates to sit outside the UK.

Not all specifications are available to private candidates and those with internally-assessed units may have restrictions. Further information can be found on the private candidates page of our website

[aqa.org.uk/privatecandidates](https://www.aqa.org.uk/privatecandidates)

Restricted pilot specifications

Specifications offered as part of a restricted pilot have been included in this booklet. Most pilot schemes have the maximum number of candidates and centres that can participate determined by the regulator. Centres will normally be invited to take part in the pilot scheme. If you require any information on any of the restricted pilot specifications, please contact the appropriate customer support team.

OxfordAQA centres

There are restrictions on new OxfordAQA centres entering for AQA specifications, where an equivalent OxfordAQA specification exists. Please see the Make entries page of the [aqa.org.uk](https://www.aqa.org.uk) website (under 'Other useful documents') for more details.

3 Changes to exams

Availability of qualifications within Wales

We are offering all our GCSE, AS and A-level qualifications in Wales.

Of these, only 'designated' qualifications recognised by Qualifications Wales will be eligible for state funding. Details of which qualifications attract state funding can be found on the Qualifications Wales [website](#).

Availability of qualifications within Northern Ireland

Schools and colleges in Northern Ireland can offer all of our GCSE, AS and A-level qualifications as long as they meet any subject-specific requirements, even if the qualification was specifically designed for England.

The only AQA specifications that schools in Northern Ireland **cannot** offer are:

- AS Biology (7401) & A-level Biology (7402), AS Chemistry (7404) & A-level Chemistry (7405), and AS Physics (7407) & A-level Physics (7408) as these awards don't have a mark for assessing practical skills that contribute to the overall grade.
- GCSE English Language (8700), as it doesn't have a mark for speaking and listening that contributes to the overall grade.
- Functional Skills English (8720, 8725) and Mathematics (8361, 8362) as Northern Ireland has Essential Skills qualifications.

GCSE Biology (8461), Chemistry (8462), Physics (8463), Combined Science: Synergy (8465) and Combined Science: Trilogy (8464) were made available in Northern Ireland for first teaching in September 2017. The first examinations for pupils in Northern Ireland were in June 2019.

GCSE exams in 2023/24

In December 2011 Ofqual announced that all GCSEs taken in June 2014 and after will be linear in structure. All candidates will be required to take all GCSE assessments at the end of the course with the following exceptions:

- For most GCSEs, a candidate who has previously certificated and is satisfied with the result(s) awarded for the non-exam assessment (NEA) unit(s) may be able to carry forward the result(s) for the NEA.

This change to specifications, including information on carrying forward NEAs, is detailed in the information in Section 5 for each specification.

4 Explanatory notes on the entry code tables

This document lists the unit, option and subject award entry codes for November, January, March and June series in the academic year 2023/24.

- Subjects are grouped by qualification (GCE, GCSE etc)
- In each section, subjects are in alphabetical order by specification

Example entry code table (please note that **this specification is no longer available** and is included here for illustrative purposes only)

+ 46303 + 46304								

10 This unitised specification must be taken in a linear manner – which means that each unit contributing to the GCSE award must be taken in the same exam series. A separate entry is required for each unit and for the subject award.

If a candidate wishes to re-take the qualification, they may carry forward the result(s) of the controlled assessment unit(s) provided the candidate has previously certificated the **same** qualification (for example a candidate re-taking the Full Course must have previously certificated the Full Course award). If a candidate has more than one previous attempt, the attempt that was used in the most recent award will be carried forward.

Candidates wishing to carry forward unit 3 speaking controlled assessment must carry forward **both** the recorded and unrecorded components (candidates do **not** have the option of carrying forward one component and submitting new marks/work for the other component).

If a candidate wishes to carry forward the result for the controlled assessment unit(s), a new entry for the unit(s) is still required in the certifying series.

Each table contains the following information

- ① Details of the specification including
 - Specification title
 - Qualification Including Full Course, Double Award and so on as appropriate. Where they differ, qualification codes are shown in brackets (for example (IG) or (AQAC))
 - Specification code not to be confused with the Entry Code – see ②
 - Basedata group code this is the code under which all entry codes for a specification can be found in the electronic basedata files (see the Exams administration | Entries | Entries for exams officers | EDI and basedata page of our website [aqa.org.uk](https://www.aqa.org.uk) for details)
 - Discount code See page 5. Also known as a classification code
KS4 Key Stage 4 discount code
KS5 Key Stage 5 discount code
 - Qualification number
 - Attainment 8 measure(s) English, Maths, EBacc or Other. See the [DfE website](https://www.gov.uk/government/organisations/department-for-education) for more information about Attainment 8 and Progress 8.
- ② Each entry for a subject award, unit or option should be recorded by means of an Entry Code. A separate entry, using the appropriate entry code, is required for every assessment (subject award, unit or option) for which a result is to be reported. It is essential that you make entries using only these entry codes.
- ③ The series in which a particular examination is available and the closing date for entries for that series. The tables show only those series in which entries for the specification are collected.
- ④ For most specifications, the weighting of each unit towards the overall award.
 - AS GCE Advanced Subsidiary
 - AS sgl GCE Advanced Subsidiary Single Award
 - AS dbl GCE Advanced Subsidiary Double Award
 - ADV GCE Advanced
 - ADV sgl GCE Advanced Single Award
 - ADV+AS GCE Advanced with Advanced Subsidiary (additional) award
 - ADV dbl GCE Advanced Double Award
 - Short GCSE Short Course
 - Full GCSE Full Course
 - Sgl GCSE Single Award
 - Dbl GCSE Double Award
- ⑤ Where applicable, the maximum uniform mark (UMS).
- ⑥ Description of the units or options within a specification for which an entry can be made.
- ⑦ Information is shown where multiple components make up the unit or option. Note that no component information is shown where a unit consists of just a single component.
- ⑧ See *Key to Symbols* on page 10.
- ⑨ For modular specifications, entry details for the overall subject award together with information of the valid combinations of units which must be taken to give a subject award.

⑩

Information about the specification, units or options including details of the following:

information that is relevant to entries

any changes to specifications or other important information

any specifications that share a discount code with another specification assess a common subject area and should be seen as alternative specifications. See page 5 for full details

any prohibited combinations, in addition to restrictions within discount codes

information relating to conditions that apply to the entry of private candidates

Key to symbols

The following symbols may be used in the entry tables:

Indicates components/elements for which marks may be carried forward from a previous exam series.

For the lifetime of the specification there is no limit on the number of occasions on which the marks can be re-used or on the period of time since the original result. However, other restrictions may apply (please see the information under the entry code table for the specification).

Refer to the information for the specification

Refer to the information for the specification

Refer to the information for the specification

Indicates specifications, units or components for which teachers and/or candidates need to have preliminary material or early papers before the main exam period

Where early material applies to the specification as a whole the symbol is shown with the specification details (see 8a in the example on page 8) otherwise it is shown against the relevant unit or component (see 8b in the example on page 8)

If your centre is entering candidates for any of these specifications, you will find full details of the source and availability of preliminary material in the *Specification* and in the *Early Question Papers and Preliminary Material* booklet, which is available from the [Exams administration | Exams guidance | Exams materials](#) page of our website [aqa.org.uk](https://www.aqa.org.uk)

A single entry is all that is needed for examination papers, endorsement entry (where applicable) and certification.

If a candidate wishes to re-take the qualification, they may carry forward the endorsement provided the candidate has previously certified the same qualification. If a candidate has more than one previous attempt, the attempt that was used in the most recent award (including grades of 'Not Classified') will be carried forward. The endorsement may be carried forward across awarding bodies.

 The AS specification is available to private candidates. It is expected that students undertaking the AS will have the opportunity to observe at least the six required practical activities in section 7.2 of the specification, and private candidates should be given the opportunity to observe sufficient practical work to fulfil this expectation. 15% of the marks in the AS papers will relate to practical work.

The Advanced specification is available to private candidates. Centres accepting private candidates must make provision for them to carry out all the required practical activities specified in section 8.2 of the specification and must submit a non-exam assessment, fieldwork and live performance centre declaration form.

Candidates must be assessed in one British history option (indicated by an asterisk*) and one non-British history option.

AS entry codes

These are generated as follows:

- the first four characters are the AS specification code 7041
- the fifth character is the letter that indicates the paper 1 option
- the last character is the letter that indicates the paper 2 option.

The table below shows all the valid combinations of papers and associated AS entry codes. An asterisk* indicates a British history option.

Advanced notes

Candidates may only enter for **one** of the Advanced entry options per series. A single entry is all that is needed for examination papers, non-exam assessment and certification.

Candidates must be assessed in one British history option (indicated by an asterisk*) and one non-British history option. In addition the following combinations of papers are not permitted:

- 1C cannot be combined with 2C
- 1D cannot be combined with 2F

There is an additional requirement of the Advanced level specification that candidates must cover a chronological range of at least 200 years through the topics assessed in paper 1 + paper 2 + NEA.

If a student wishes to carry forward, they must either re-take the same written exam options as the original attempt, or confirm that the new options still comply with the requirements of the specification (ie there is no overlap of content between the original NEA and the new exam options, and that all three components together cover a chronological range of at least 200 years).

Advanced entry codes

These are generated as follows:

- the first four characters are the Advanced specification code 7042
- the fifth character is the letter that indicates the paper 1 option
- the last character is the letter that indicates the paper 2 option.

The table below shows all the valid combinations of papers and associated Advanced entry codes. An asterisk* indicates a British history option.

GCE

These specifications are **not** available to centres in Northern Ireland. For more information, see the Changes to exams section on page 7.

A single entry is all that is needed for examination papers, non-exam assessment (where applicable) and certification. Candidates taking the A-level qualification will only be allowed to enter **one** of the five options per series.

If a candidate wishes to re-take the qualification, they may carry forward the endorsement provided the candidate has previously certified the same qualification. If a candidate has more than one previous attempt, the attempt that was used in the most recent award (including grades of 'Not Classified') will be carried forward. The endorsement may be carried forward across awarding bodies.

The Department for Education (DfE) assign each qualification national discount (classification) codes on the basis of the subject area it covers - these codes are used in the calculation of school/college performance tables. Please see page 5 for information about changes to discounting and the new 'early entry' rule.

The AS specification is available to private candidates. It is expected that students undertaking the AS will have the opportunity to observe at least the six required practical activities in section 7.2 of the specification, and private candidates should be given the opportunity to observe sufficient practical work to fulfil this expectation. 15% of the marks in the AS papers will relate to practical work.

The Advanced specification is available to private candidates. Centres accepting private candidates must make provision for them to carry out all the required practical activities specified in section 8.2 of the specification and must submit a non-exam assessment, fieldwork and live performance centre declaration form.

Candidates may enter for only **one** of the AS options and/or **one** of the Advanced options per series. A single entry is all that is needed for examination papers, non-exam assessment and certification.

Speaking tests:

- Teacher conducted options
Centres must submit candidates' speaking tests via a secure portal.
- Visiting examiner options
Centres who request a visiting examiner must meet the requirement for a minimum of **eight** candidates across AS and A-level.
- The NEA may be carried forward at the same level between either the same or different entry options (T and V).

The Department for Education (DfE) assign each qualification national discount (classification) codes on the basis of the subject area it covers - these codes are used in the calculation of school/college performance tables. Please see page 5 for information about changes to discounting and the new 'early entry' rule.

These specifications are available to private candidates provided they attend an AQA approved centre willing to make arrangements for conducting the speaking tests. For the A-level specification, that centre must also be prepared to supervise and authenticate the individual research project.

 This specification is **not** available to centres in Northern Ireland. For more information, see the Changes to exams section on page 7

A single entry is all that is needed for examination papers, non-exam assessment and certification.

If a candidate wishes to re-take the qualification, they may carry forward the endorsement provided the candidate has previously certified the same qualification. If a candidate has more than one previous attempt, the attempt that was used in the most recent award (including grades of 'Not Classified') will be carried forward. The endorsement may be carried forward across awarding bodies.

Centres must submit a non-exam assessment and fieldwork centre declaration form.

 The Department for Education (DfE) assign each qualification national discount (classification) codes on the basis of the subject area it covers - these codes are used in the calculation of school/college performance tables. Please see page 5 for information about changes to discounting and the new 'early entry' rule.

 This specification is available to private candidates where:

- because of the nature of the non-exam assessment (NEA), candidates are attending an AQA centre that must supervise, authenticate and **assess** the NEA

or

- if the candidate has certificated in a previous series, then the result for the NEA can be carried forward.

 Entries for the November series will only be available to candidates who were at least 16 years old on 31 August in the same calendar year, as set out in Ofqual's GCSE subject level conditions and requirements for English Language.
