Isolation or Innovation?

“No man ever steps in the same river  
twice, for it’s not the same river and  
he’s not the same man”

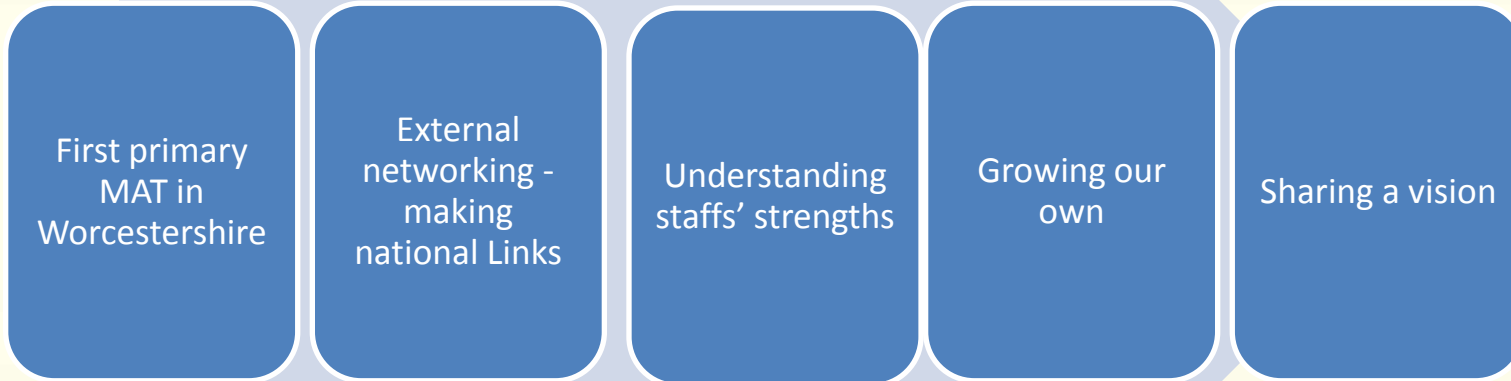

*Heraclitus*

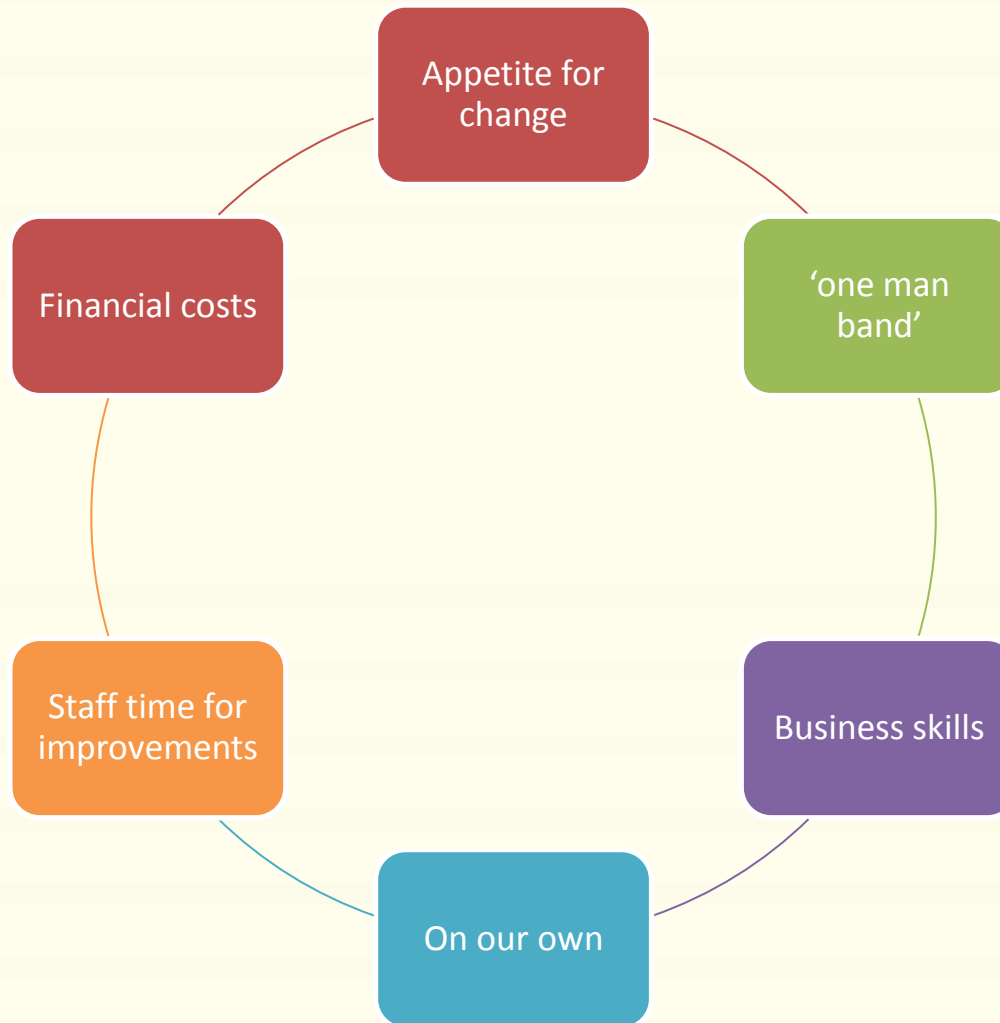

A photograph of a river flowing through a dense forest. The river is characterized by numerous large, smooth, greyish-brown rocks of various sizes scattered throughout its course. The water is clear and turbulent, creating white foam and rapids as it flows over the rocks. The surrounding forest is lush with green foliage, and sunlight filters through the trees, creating dappled light on the rocks and water. The overall scene conveys a sense of natural beauty and the enduring power of water over time.

**A river cuts through rock,  
not because of its power  
but its persistence.**
